Part 1 - Annual Budget

1.1 Mayor's Report

The Monthly section 71 report is a report that gives a clear view on the state or performance of the Municipality for that month as well as the year to date performance. Among the impacts that are challenging the Municipality, is the cash flow challenge currently being experienced by the municipality due to among other things declining collection, historic expenditure patterns, high water losses and high rate of indigents within the municipal boundaries.

Management within local government has a significant role to play in strengthening the link between the citizen and government's overall priorities and spending plans. The goal should be to enhance service delivery aimed at improving the quality of life for all people within the UThukela District Municipality .Budgeting is primarily about the choices that the municipality has to make between competing priorities and fiscal realities. The challenge is to do more with the available resources. We need to remain focused on the effective delivery of the core municipal services through the application of efficient and effective service delivery mechanisms.

1.2 Council Resolutions

- 1. The Council of UThukela District Municipality, acting in terms of section 71 of the Municipal Finance Management Act, (Act 56 of 2003) to note:
- Monthly Budget statements and supporting documents for the months of October 2024.

1.3 Executive Summary

As per Municipal Finance Management Act the municipality needs to prepare section 71 report in a prescribed format as per national treasury regulations.

The District Municipality has to embark on implementing revenue collection strategies to optimize the collection of debt owed by consumers.

The municipality is also embarking on assuring that all grants are spent during the 2024/25 financial year.

FINANCIAL RATIOS

	FINANCIAL RATIO	October 2024	COMMENTS ON RATIOS
	Capital Expenditure to Total Expenditure (10%-20%)	Total Capital Expenditure / Total Expenditure (Total Operating Expenditure + Capital Expenditure) × 100	This ratio is used to assess the level of Capital Expenditure to Total Expenditure, which indicates the prioritization of expenditure towards current operations versus future capacity in terms of municipal services
		51 756 / (25 349 + 51 756) = 51 756 / 276 419 = 67%	The financial performance of the municipality is not satisfactory and corrective measures needs to be implemented to halt and improve the current status. The norm range is between 10% and 20%
<u> </u>	Cash Coverage Ratio	((Cash and Cash Equivalents - Unspent Conditional Grants - Overdraft) + Short Term Investment) / Monthly Fixed Operational Expenditure excluding (Depreciation, Amortisation, and Provision for Bad Debts, Impairment and Loss on Disposal of Assets) (19 342 483 – 58 094 589 – 0 + 8 516 873) / 32 681 00) = -0.9 Months	The Ratio is adjusted for Unspent Conditional Grants as the cash is not available for normal Municipal day-to-day operational expenditure but rather reserved for Grant related expenditure. The Municipality ratio is 11 months. The cash coverage is also declining as it can be witnessed from the declining cash and cash equivalent and short investments, these are signs of a municipality in financial crisis, However the liquidity ratio is not sufficient to cover the liabilities when they become due The more cash reserves a municipality or municipal entity has available the lower the risk of it being unable to fund monthly fixed

		operational expenditure and to continue rendering services. The Norm Range is between 1 Month to 3 Months
Net Operating Surplus Margin	(Total Operating Revenue – Total Operating Expenditure)/ Total Operating Revenue x 100% (350 952 – 182 069)/ 350 952 x100 = 48%	Net Operating Surplus Margin Net profit margin, or simply net margin, measures how much net income or profit a municipality generates as a percentage of its revenue. Based on the re-calculation's municipality ratios is 48%
Creditors Payment Period > 30 days (= 0)	Trade Creditors Outstanding / Credit Purchases (Operating and Capital) × 365 413 240 / 426 789 x 365 = 353 days	Trade Creditors This ratio indicates the average numbers of days taken for Trade Creditors to be paid The municipality ratio is 353 days it takes to pay it creditors Due to liquidity challenges, it is evident that the municipality is struggling to pay its creditors within the legislated time frame (within 30 days). The municipality should improve in managing working capital and cash flow to honour their financial obligation when due

	Remuneration (Employee Related Costs and Councillors Remuneration) as % of Total Operating Expenditure)	Remuneration (Employee Related Costs and Councillors' Remuneration) / Total Operating Expenditure x 100 (363 137 + 6155)/ 967 232 = 38%	The ratio measures the extent of Remuneration to Total Operating Expenditure Employee related costs and councillors' remuneration ratio amount to 38% of the total operating expenditure, which is within the MFMA circular 71 recommended norm of 25% - 40%
