Part 1 – Annual Budget

1.1 Mayor's Report

The Monthly section 71 report is a report that gives a clear view on the state or performance of the Municipality for that month as well as the year-to-date performance. Among the impacts that are challenging the Municipality, is the cash flow challenge currently being experienced by the municipality due to among other things declining collection, historic expenditure patterns, high water losses and high rate of indigents within the municipal boundaries.

Management within local government has a significant role to play in strengthening the link between the citizen and government's overall priorities and spending plans. The goal should be to enhance service delivery aimed at improving the quality of life for all people within the UThukela District Municipality. Budgeting is primarily about the choices that the municipality has to make between competing priorities and fiscal realities. The challenge is to do more with the available resources. We need to remain focused on the effective delivery of the core municipal services through the application of efficient and effective service delivery mechanisms.

1.2 Council Resolutions

1. The Council of UThukela District Municipality, acting in terms of section 71 of the Municipal Finance Management Act, (Act 56 of 2003) to note :

2. Monthly Budget statements and supporting documents for the months of September 2026.

1.3 Executive Summary

As per Municipal Finance Management Act the municipality needs to prepare section 71 report in a prescribed format as per national treasury regulations.

The District Municipality has to embark on implementing revenue collection strategies to optimize the collection of debt owed by consumers.

The municipality is also embarking on assuring that all grants are spent during the 2026/27 financial year.

Operating Revenue:

Services Charges Water

The Water Sales income recognised 2% which is a standard norm. The total revenue billed is R77 million.

Services Charge Wastewater

The municipality has billed R5.1 million from wastewater which is 10% below what was anticipated. The percentage is above threshold due to the prepaid meters being installed. The basic charged for sewer falls on the prepaid.

SALE OF GOODS AND RENDERING OF SERVICES

The municipality has incurred 6% below what was originally anticipated. This has been due to the publication of maps (Towers rent).This will be adjusted in the adjustment budget

INTEREST FROM RECEIVABLES

The municipality has incurred 43% below what was anticipated. The municipality has budgeted this line item due to the previous balance of debtor, that balance has since changed drastically due to debts written off. This will be adjusted in the adjustments budget

INTEREST FROM CURRENT AND NON-CURRENT ASSETS

The municipality incurred a variance of 21% below what was anticipated, as at the end of September 2026. The municipality now receives MIG grant funding based on approved invoiced expenditure, once the funds are received, the corresponding invoice must be paid promptly. The municipality no longer receives and invests the grant funds while waiting for invoices to be submitted. The interest on investments for the month of September has also been not costed.

FINES, PENALTIES AND FORFEITS

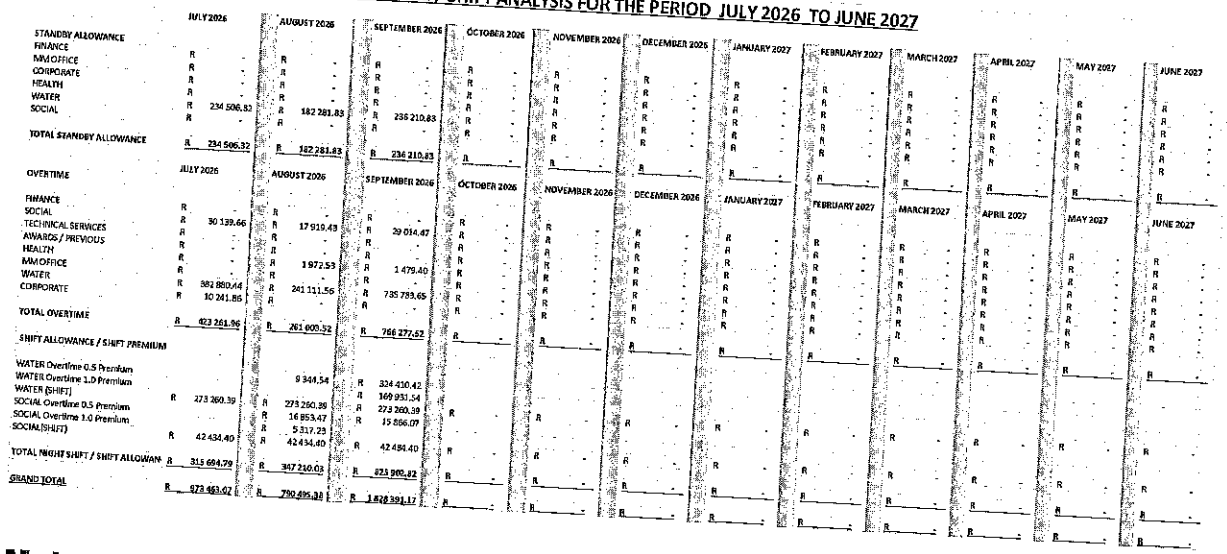

This is related to mostly the health department, and the municipality has recognised a negative 88% variance. Health records all the transactions separately before it is brought to the municipality for receipting, so there's a delay.

TRANSFERS AND SUBSIDIES – OPERATIONAL

The municipality has recognised 23% variance above what was anticipated, which is a result of the municipality receiving the first trench of equitable share.
