ANNEXURE C: Personal Development Plan

APPENDIX C: PERSONAL DEVELOPMENT PLAN

1. KEY TO TERMINOLOGY USED IN TEMPLATE

Terminology	Description
Development Objectives	are objectives that you have identified to enable you to meet the learning and development needs identified at the skills analysis stage
Priority	identifies whether your development objective is: - critical to your current role - beneficial but non-critical to your current role - critical to your progressing in to future role - beneficial but non-critical to progressing in to future role
Activities	an constitute any learning or development activity that will enable you to achieve your development objectives e.g. formal training, on-the-job training, work-shadowing another colleague etc.
Support/Resources	Describe what you need to help you achieve your development objectives. Typically this would involve support from your manager, department or colleague to enable you to undertake a learning or development activity such as allowing you time away from your role or funding from your department.
Target and Actual dates	state when you intend to achieve your development objectives followed by the date you actually achieve them. Data in these columns is particularly useful when you review your PDP as it will enable you to identify any factors that may have prevented you from achieving your development objectives on the target date and build in contingencies to prevent this from occurring in the future.
Review date	states when you will review progress on your Personal Development Plan. Assuming that you undergo the personal development process annually, we recommend that you review your PDP every six months therefore enabling you to: - Assess your progress - Reflect on your learning - Identify whether your development objectives need to be amended - Identify factors that may have prevented you from achieving your development objectives - Build in contingencies to enable you (where possible) to meet your agreed target date in the future
